

Wanted to inform you of the fraudulent billing practices of Lingo VOIP Services (Primus Telecom). In the billing of these Lingo VOIP accounts, they have been applying Primus Telecom Landline Subscriber Charges and Landline Levies on my account since my June 04' startup with their company. Upon many attempts to bring this to their attention, they fail to recognize my complaint, insisting that this is the 3% FET tax, which it is not, this amounts to \$10 per month in "Prescribed inter-exchange Carrier Charges, CA Tax, County/local Taxes, and State Taxes and Surcharges. They are in "Virginia". Please advise thanks.
